

Home Energy Assessment

A professional from the Northamptonshire Energy Saving Service (NESS) team can provide a free and independent assessment of your home followed by practical measures to improve energy efficiency and reduce your energy costs:

- Draught exclusion measures to doors and windows
- Repairs to doors and windows
- Radiator reflector foils
- Replacement radiators
- Energy saving lightbulbs
- Chimney balloons
- Gas safety checks, servicing and minor repairs

Improvements to your home from the above list can save between £25 a year up to £150 depending on the type of property, type of fuel, fuel charges and current insulation levels.

Every household will also be issued with a free NESS Energy Information and Advice Pack, packed with information on energy savings and ways of improving your comfort and wellbeing.
